

Good evening parents, this is Vaughn White, Superintendent of Hesperia Community Schools with some information to share with you.

Parents, tomorrow, Thursday, April 1 will be a half-day for students. Students will be released to go home in the afternoon. Students will return to school on Monday, April 12 after spring break.

Vaccines are available for adults and teens age 16 and over through our District 10 Health Department. If you wish to get a vaccine for yourself or your teen, go to the DHD10.org website to register for an appointment. The spread of this virus is the highest right now in the teen and young adult population.

During Spring Break many families will be getting together and/or traveling during this time. If you would like to be sure that you or your child has not picked up this virus during the spring break, antigen testing will take place on Sunday, April 11, at NCRESA in Fremont from 12 to 6 p.m. Registration information for antigen testing can be located on our District's Facebook Page.

Thank you and have a great evening.
